MELBOURNE SUBURBAN TRAINS

Operator: Metro Trains Melbourne

VM1 MELBOURNE CITY CIRCLE

No08

BG. Electric Multiple Units.

Flinders Street-Southern Cross is six tracks on viaduct with views of the city and river.

The remainder of the City Circle is underground. It comprises four independent lines: one for the Caulfield group of lines, one for the Burnley group, one for the Clifton Hill group, and one for the Northern/Western group.

On Mondays to Fridays, from the first train until midday, Caulfield & Burnley group trains operate anti-clockwise around the Loop.

From midday until the last train, these trains operate clockwise around the loop.

Northern/Western group trains operate in the opposite directions.

In the morning peak, Werribee line trains operate direct to Flinders St. (not via the Loop).

In the evening peak, Werribee line trains operate direct from Flinders St. (not via the Loop).

Clifton Hill group trains operate clockwise at all times.

On weekends, Burnley & Clifton Hill trains operate clockwise, Caulfield & Northern/Western trains operate anti-clockwise.

Flagstaff station is closed on Saturdays and Sundays.

The Loop is integrated with the rest of the suburban network and most Melbourne suburban trains operate around the Loop.

The main exceptions are peak-hour trains from middle-distance stations such as Alamein, Blackburn, Williamstown, Werribee peak and on Mondays-Fridays all (except for a few counter-peak) Sandringham line trains. On Saturdays and Sundays, however, almost all Sandringham trains operate around the Loop.
